

All our products are made from treated timber for protection from pests and the weather and made to order to your specifications.

We manufacture components for internal stairs and should you require installation of our products, we have qualified installers who will measure and fit them for you.

Select from our huge range in sizes and lengths to match your needs. For clear and natural finishing, we can provide just what you're looking for in a range of select grade timbers. Of course, we are also able to assist you in deciding which styles are best for your home, adding flair and elegance.

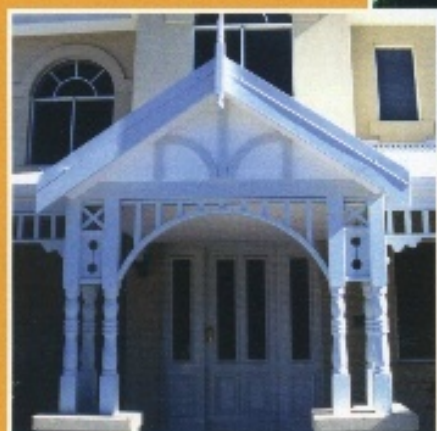

If you are in the process of renovating and have turned items that need matching, we can reproduce these for you.

Thinking of renovating?

verandah posts ~ pergola posts
finials ~ frieze ~ balustrading ~ arches

Colonial Timber Turners is a small, family owned and run business established in 1988 to provide turned products and services to builders, renovators, home owners and manufacturers.

Or if you are after something unique, we can help you design your own exclusive profile.

Our present customer base includes some of Perth's leading builders, designers and architects. Please view some of our work on our website and if it is turned timber you require, Colonial Timber Turners will be able to assist you.
